SUPERVISORS:

Officer Issa reports that for the last 5 days we have had street racers on Lower Grand. They show up around 0015 and are active as late as 0130. They have been observed doing donuts, drag racing, running the red light at General Thad, etc. See photos, below. Obviously this represents significant danger to the public, as well as our patrons and staff.

Please monitor during the target time frame and call LAPD as soon and whenever they appear. I have informed LAPD and LASD, and requested extra patrol or directed enforcement.

Also, let me know if you see any law enforcement/racer interaction, so I can report back positive feedback if possible.

Subject: RE: Lower Grand

Hello, Commander

For like the past 5 days or so we have been getting a slew of street racers on Lower Grand outside the dock and parking P4 area. They used to just take pictures but now they are flying up and down the street burning rubber. The stench from it fills the garage and eventually fills the building. This could very well trip our fire alarm! I was wondering if you could possibly call LAPD and see if they as a courtesy could do a patrol once a shift to perhaps sway these people from further incidents. I am quite sure their vehicles have many illegal modifications..The group or club seems to meet daily around 0015-0100. Yesterday I was 21D and warned them that I would call the police if they kept it up. They all left the area. Last night, they showed up again so they don't learn. I wanna say there is about 15 cars or so involved. The cars vary from a Lamborghini down to Hondas.

Thanks,

STEVE ISSA
